

November 2019

QRIS Revision Advisory Committee

The Stars Revision State Leadership Team held an in-person meeting on October 30th to discuss initial input on changes to standards in the Qualifications & Professional Development and Family & Community Partnerships domains and how ongoing work in early learning across Delaware will intersect with the Stars revision process. They will meet again in mid-November to continue this discussion. Leadership Team representatives also met with experts from the Delaware Academy of School Leadership to review the current leadership and administration standards and conduct focus groups to solicit input on revisions to these Stars standards to support the work of providers in all settings and ultimately the improvement of outcomes for programs, providers, children, and their families.

If you have any questions about the QRIS Revision process, please see the [QRIS Revision webpage](#) or email [John Fisher-Klein](#).
